

1922 – 1 Fourth Street – Mardi, Lucille, Eleanor & Ruth Staneland

The Ward's Island Association is celebrating its 94th year as a recreational, not-for-profit association. The WIA was established in 1913 to meet the aquatic and amateur sport recreational needs of its members who were originally summer residents of Toronto Island.

Early residents of what was referred to as "Tent City" erected tents like the one pictured on the back cover on small lots leased from the City of Toronto. In 1931 conversion of tents to permanent structures was permitted.

In 1937 a community clubhouse was built as the focal point for all WIA social and recreational activities. Gala Day marks the mid-point of the summer season and now extends to four days of celebration.

WIA members, Island residents and their guests are welcome to partake in "Gala Day" recreational activities that include a fire parade, live music, dance, games, sporting events, bingo and a draw.
